

Notice to people with rain tanks

The amount private water carriers pay to fill up their tankers at our water filling stations increased from \$1.39 to \$3.90 +GST per 1,000 litres on 1 March 2021.

New costs by volume

\$11.70 + GST	\$39.00 + GST	\$78.00 + GST
per 3,000 litres	per 10,000 litres	per 20,000 litres

Over summer, we increased the number of water filling stations in Auckland in order to help private water carriers to serve their customers in a timely manner. The new price reflects these service improvements as well as our investment in major infrastructure such as water treatment plants and large water pipes.
