

Water conservation tips

Turn off the tap when you brush your teeth. You use 1 litre with the tap off and 5 litres with the tap running.

Please reduce your water use by 20 litres - two buckets - per day

At school, wash your paint brushes in a bucket or ice cream container of water instead of under a running tap.

Turn the tap off as soon as you've washed your hands.

If you see water leaking at home, tell your parents.

At home, take a quick shower. See if you can cut your shower time by 2 minutes - that will save around 16 litres.

If you see water leaking anywhere at school, tell your teacher.

Don't use your toilet as a rubbish bin. 5 to 12 litres is wasted every time you flush it.
