This form is to be used for a request for Reconsideration of and/or Objection to an assessment of infrastructure growth charges payable under Watercare's Infrastructure Growth Charges Terms and Conditions (T and Cs).

A Reconsideration must be requested within 10 working days of the date on which the person lodging the request receives notice (by way of an invoice) from Watercare of your infrastructure growth charge assessment.

You can object to an assessment after you have requested a Reconsideration. However, you cannot request Reconsideration of an assessment after you have applied for an Objection against that same assessment, in which case the IGC Commissioners' decision will be final.

Objections must be lodged within:

- **15 working days** of the date on which the person lodging the request receives notice from Watercare (by way of an invoice) of your infrastructure growth charge assessment, or
- for an Objection following a Reconsideration by Watercare, within 15 working days of the date on which the person receives notice of the outcome of that Reconsideration.

Watercare may, in its discretion, allow a request for Reconsideration or Objection to be served on it after the relevant working day period specified, if it satisfied that exceptional circumstances exist.

Once it has been established that an Objection fits one (or more) of the relevant grounds for Objection, it will be determined by IGC Commissioners.

IGC Commissioner, secretarial and administrative costs associated with an Objection are required to be paid by the applicant, who indemnifies Watercare for the payment of all costs in connection with the Objection. For further information on fees, see clauses 35 to 37 of the Charter.
