

Hunua 4 watermain project

Improving your water network

Starting in 2012, we have been installing a new water pipeline called Hunua 4 that runs from Redoubt Road in Manukau City and will finish at Khyber Pass in the central city, at a cost of \$400 million. The pipe is now in service up to Market Road, Epsom.

Our contractor McConnell Dowell is currently constructing the final section of the Hunua 4 watermain from Market Road to the Khyber Pass Reservoirs in November 2018 and is due to be completed in 2021.

The completion of the new watermain will ensure that we can continue to provide uninterrupted, high quality water as Auckland continues to develop.

What are we doing?

- Constructing the final 3.5 kilometre section of the water pipe from Market Road to the Khyber Pass Reservoirs.
- To minimise disruption, construction will mainly be through tunnelling. Some sections will require open trenching, and there will be five shafts to allow access for the tunnelling machine.

How will this project affect you?

- Some traffic management will be in place during construction around the shafts and for open trenching – we will provide advance notice to help minimise disruption.
- Access to businesses and residents will remain open during the works
- Construction sites will be fenced for the safety of the public
- We may work outside of normal hours at times, but we will inform you of this in advance.

To keep informed

Please email 'sign me up' to hunua4@water.co.nz for project updates and traffic changes.

*Please remember to keep safe
around the construction site.*

Please see overleaf

Key facts

The tunnel will be

Big enough to walk through

In some places, the tunnel is

and as **tall** as the Hunua Falls

The tunnel boring machine will bore

3km of tunnels

Any questions regarding the project?

If you have any questions regarding the project, please email: hunua4@water.co.nz

or phone: Michelle Roach from McConnell Dowell on 0508 623 266

For Watercare queries not related to the project, you can call our customer centre on 09 442 2222
